graph," died this evening at his home in this city. He had been ill for many weeks. James Douglas Reid was born at Edinburgh, Scotland, March 22, 1819, and came to America in 1834. His entrance into the telegraphic service was in 1845, when he assisted in the organization of the Atlantic and Ohio Telegraph Company, for the construction of a series of lines connecting Philadelphia, Pittsburg, Buffalo, Detroit, Cincinnati, St. Louis and New Orleans, the most extensive series projected at that time. Becoming acquainted with Frof. S. F. B. Morse, a mutual attachment sprang up between them, which led to Mr. Reid's appointment as superintendent of the Magnetic Telegraph Company, a line extending from New York to Washington, at the same time retaining his connection with the Atlantic and Ohio company. He entered the service of the Western Union Telegraph Company in 1850, wherein he remained until 1889, when he was appointed United States consul at Dunfernlie, Scotland, through the influence of Andrew Carnegie, who, as a boy, had served as messenger and telegraph operator under Mr. Reid at Pittsburg. He relinquished this office in 1897. The statue of Professor Morse in Central Park, this city, was crected by the telegraph fraternity through efforts of Mr. Reid.

Colonel Maxson refused to accept service on the ground that the order lacked official identity, and at once dispatched word to his men at the front to ignore the order. The Clark forces, however, are preparing to yield gracefully to their rivals so soon as the United States marshal serves official notice; but until that time they declare they will hold every inch of ground they now possess even at the risk of a fight. In this decision they are upheld by the officers of the Clark interests in Sait Lake and Los Angeles, who have telegraphed them to make no further conces-

Governor Gage and a delegation from the State Legislature will be there to tender an official welcome. The committee appointed by the citizens and by the various societies will also be there to join in the tinguished guests until noon, at which time the train will start for Los Angeles, arriv-

ing there at 2:30. A number of features are on the programme for the entertainment of the President at the City of Angels. Among them are a floral display which will give full ductiveness of the Southland in this respect. Pasadena, the City of Roses, will entribute from her wealth of floral beauties to make the display a grand one.

From Los Angeles the party will journey on Friday to the north, making short stops at San Buenaventura, Santa Barbara and San Luis Obispo, and arriving at Del Monte Sunday will be spent in the quiet rest afforded under the beautiful scenery of California's most famous hostelry, and on Monday travel will be resumed toward the big trees of the Santa Cruz mountains. it is expected that the inspection of this wonderland will be a revelation to the mem- England's Prime Minister Has a bers of the presidential party. Thirty Thousand Persons Visit the Pan-American Show Grounds.

BUFFALO, April 28.-To-day's attendance at the Pan-American exposition was record breaker for a pre-exposition crowd. Fully 30,000 persons passed through the gates about 75 per cent. of them paying for admission. Although the exposition is still far from complete everyone seemed satisfied with what there was to see. The managers of the exposition had been working for a unique distinction—that of having all things in readiness for the opening day and had it not been for the storm their hopes would have no doubt been fulfilled. As it is the "sand-paper" finish the management has strived for cannot be accomplished by May 1, but there will be enough of it to repay any one who visits the grounds on opening day. An event on the opening day next Wednesday will be the flight of 5,000 carrier pigeons, carrying the news of the opening of the exposition.
